Perennials

HARDY PERENNIAL, ALPINE and ROCK GARDEN PLANTS

We have a special Perennial Display Carton that we can recommend very highly to you. This package is not only suitable for counter and store trade but also for the regular nurserymen who find Perennials very perishable and hard to handle.

We have 115 varieties that we are handling in this manner and would suggest you write for our special Price List and variety list covering same.

(1)

Our perennials are packed in ventilated "Air Conditioned" cartons packed 25 plants per carton. (No. 1).

PLEASE ORDER
IN UNITS OF 25.

Each plant is individually wrapped with damp peat pressed firmly next to the roots, which need not be disturbed in planting. On the outside of this peat a descriptive and instructive selling wrapper is placed, giving complete description of plant with cultural directions.

(2)

ALL PERENNIALS ARE SHIPPED BY EXPRESS. They are very perishable and should not be included in a Freight shipment.

The following is a general list of Perennials which come bare-rooted suitable for Landscape and regular Nursery trade.

The growing of Perennial and Alpine plants is a job that one would call that of a specialist, taking considerable extra equipment and a knowledge of growing that is very technical.

We have been growing Perennials in a rather large way for the last eight years, and in order to keep our variety list up to date we are continually searching the world over for new plants and seeds.

We invite you to inspect our trial grounds where our newer varieties of hardy plants are being tested out.

All plants quoted are FIELD GROWN STOCK of such size as most satisfactory for general planting.

Varieties * indicates adaptability for rock plants.

Color indicates bloom; Month period of blooming season; (") Inches high when in bloom; (') Feet high when in bloom.
